Job Summary

We are searching for a **Senior Front-End Developer** to build web applications for our company, seeking a highly skilled and experienced to join our dynamic team. As a Senior Front-End Developer, you will play a crucial role in designing and implementing user interfaces for our web applications and ensuring an exceptional user experience. You will play a critical role in developing the **front-end** and **Customer Relationship Management (CRM)** interfaces for our software products. We are seeking a seasoned professional with a strong background in **JavaScript, CSS, and HTML5**. The candidate will be responsible for the complete life cycle of front-end development, from conceptualization to deployment, with a keen focus on user experience and design,

You will work closely with our design and development teams to create visually appealing and responsive web applications that meet our needs and exceed their expectations.

Primary Responsibilities

- **Front-End Development:** Develop high-quality, reusable, and scalable code for the front-end using **HTML5, CSS, and JavaScript**.
- **CRM Integration:** Master the use of JavaScript to create and integrate dynamic **CRM systems**.
- **User Interface Design:** Translate wireframes and designs into high-quality code, ensuring a seamless and visually appealing user experience.
- **Performance Optimization:** Optimize application for maximum speed and scalability while ensuring application security.
- **Collaboration:** Work closely with back-end developers and other team members to establish objectives and design cohesive, functional script.
- **Code Review and Quality Assurance:** Conduct thorough code reviews and tests to ensure the quality and functionality of the application.
- **Product Enhancement:** Constantly iterate on and improve the existing products, as well as contribute to the development of upcoming projects.
- **Documentation:** Maintain clear and comprehensive documentation of the code and the development process.
- Collaborate with cross-functional teams, including designers and back-end developers, to create innovative and user-friendly web interfaces.
- Translate design concepts and wireframes into high-quality, responsive web pages using HTML5, CSS, and JavaScript.
- Develop and maintain reusable code libraries for future use.
- Optimize web applications for maximum speed and scalability.
- Ensure the technical feasibility of UI/UX designs and implement them accordingly.
- Stay up-to-date with industry trends and best practices to continuously improve the user experience.
- Troubleshoot and debug issues that arise during development and testing phases.
- Perform code reviews to maintain code quality and provide mentorship to junior developers.
- Collaborate with stakeholders to gather and understand project requirements.

Required Skills

- **Proficient in HTML5, CSS, and JavaScript:** Extensive experience with these core web technologies, including modern frameworks and libraries such as React, Angular, or Vue.js.
- **Responsive Design:** Strong understanding of responsive web design principles and the ability to create pixel-perfect, mobile-friendly interfaces.
- **Cross-Browser Compatibility:** Knowledge of browser quirks and compatibility issues and the ability to address them effectively.
- **Version Control:** Familiarity with Git and related workflows for version control and collaboration.
- **User Experience (UX) Design:** An understanding of UX principles to create interfaces that are both visually appealing and user-friendly.
- **Performance Optimization:** Ability to optimize web applications for speed and efficiency, including minification, lazy loading, and other techniques.
- **Testing and Debugging:** Proficiency in testing and debugging tools to identify and resolve issues quickly.
- **Problem-Solving Skills:** Strong problem-solving skills and the ability to think critically and creatively to find solutions.
- **Communication:** Excellent communication and teamwork skills to collaborate effectively with designers, back-end developers, and other team members.
- **5-7 years** of proven experience in front-end development.
- Strong proficiency in HTML5, CSS, and JavaScript.
- Deep understanding of cross-browser compatibility issues and solutions.
- Familiarity with code versioning tools such as Git.

Qualifications & Experience

- Bachelor's degree in Computer Science, Information Technology, or a related field is preferred.
- Proven work experience as a Front-End Developer with **3 to 7 years** of experience.
- A portfolio of past projects demonstrating your expertise in front-end development.
- Relevant certifications in front-end development or related areas is a plus.

MANDATORY REQUISITES

- Moris works in a Hybrid mode and hence this work-from-home job will require:
- Laptop/desktop with upgraded configurations
- High-speed internet connection for seamless navigation.
- Excellent oral and written communication skills.
- The job might involve occasional outdoor travel, the candidate needs to be flexible to travel, whenever required.
- Must have Telephonic Skills as the position requires a considerable amount of work on the phone with clients.
- Must have excellent Management skills and be willing to work under pressure and on a targeted basis.
- Should be patient, career-oriented, and diplomatic.

SALARY

Salary is negotiable depending on the overall Profile, Experience/ Personality, and skills.

JOB LOCATION

Moris Media works in a Hybrid mode and facilitates our employees to work from home productive hours based on their geography to ensure maximum performance and productivity while functioning as a virtual team. The employee will be reimbursed if any traveling is required on behalf of the company.

Apply Only Through the Official Job Page

Candidates must review the complete job description, eligibility requirements, work model, location and experience expectations before submitting accurate and updated information through the official application form.

Submitting an application does not guarantee shortlisting, an interview or employment. Moris Media does not request registration charges, security deposits, training fees or candidate payments through its official recruitment process.
